

Polnewver template is used to create a link from a current policy page to the new policy version page.

Usage

```
{ {Polnewver|Link to policy} }
```

Example

```
{ {Polnewver|http://forwiki.eu} }
```

produces

This page and its talk page discuss a proposed new version of a policy, but is not itself a policy.
The actual policy is <http://forwiki.eu>.
