This template employs intricate features of template syntax.

You are encouraged to familiarise yourself with its setup and parser functions before editing the template. If your edit causes unexpected problems, please undo it quickly, as this template may appear on a large number of pages.

This template assists documentation of a user warning template by listing all of the templates in that series. For example, a series might be named "Uw-vandalism" (containing {{{uw-vandalism1}}}, {{{uw-vandalism2}}}, {{{uw-vandalism3}}}, {{{uw-vandalism4}}}, and {{{uw-vandalism4im}}}). To use the template for a normal series like uw-vandalism, use the syntax:

```
{{{user warning set|series=uw-vandalism|1|2|3|4|4im}}}
```

This will produce

Part of the uw-vandalism user warning series

Level 1 Level 2 Level 3 Level 4 Level 4im

{{{uw-vandalism1}}} {{{uw-vandalism2}}} {{{uw-vandalism3}}} {{{uw-vandalism4}}} {{{uw-vandalism4im}}}

For the uw-test series, there is no {{{uw-test4}}} (one should use {{{uw-vandalism4}}} instead), and there is no 4im level for testing edits. To indicate a template out of the series, write that name of that template in the place of "1", "2", "3", "4", or "4im". To indicate that there is no template that describes a particular edit (at all), leave that parameter blank. So

```
{{{user warning set|series=uw-test|1|2|3|uw-vandalism4|}}}
```

will yield

Part of the uw-test user warning series

Level 1 Level 2 Level 3 Level 4 Level 4im

{{{uw-test1}}} {{{uw-test2}}} {{{uw-test3}}} Use {{{uw-vandalism4}}} N/A
